WORK EXPERIENCE

Web Developer Intern

Oasis Infobyte

06/2023 - 07/2023

Kanchipuram

Achievements/Tasks

- During my one-month web development internship at Oasis Infobyte, I learned HTML, CSS, JavaScript, Node.js, and Express.js. Collaborating with experienced developers, I focused on responsive design, Git version control, and user-centric functionality. This experience strengthened my technical skills and emphasized the importance of teamwork and ongoing learning in web development.

Web Developer Intern

Growth Ninja

05/2023 - 06/2023

Achievements/Tasks

- During my internship at Growth Ninja Company, I delved into HTML, CSS, JavaScript, Node.js, and React.js. Collaborating with experts, I honed skills in responsive design, Git, and agile methods. This experience emphasized adaptability and continual growth in web development.

XAMPP

PERSONAL PROJECTS

Recipeeze

- Recipeeze is a MERN stack web application designed to enable users to discover, post, and interact with recipes. Users can explore a wide variety of recipes posted by others, engage with the community through likes and comments, and contribute their own culinary creations to the platform.

Resumate

- Resumate is a resume builder application developed using PHP and MySQL, designed to streamline the resume creation process for users. The application allows individuals to create professional-looking resumes by providing customizable templates and intuitive editing features.

CERTIFICATES

MERN stack course completion certificate (06/2023)

React.js course completion certificate (08/2023)

PHP, MySQL completion certificate (06/2023)
